

# NO POVERTY

The SHG's are instrumental in reducing poverty as the women are able to take small loans from their own savings. They learn the value of saving as well as entering into the need of others in the group to help those who ask for loans from the group . They are taught new methods of cultivation thus increasing the yield.

*System of rice intensification*

*SRI cultivation*

*Bee keeping for income generation*

*First time honey being extracted from bee hives*
